THE SUPREME COURT

Important Cases to Be Decided in Washington.

THE FIRST WEEK'S WORK BEGUN.

Boyd-Thayer Gubernatorial Case from Nebraska Argued—The Anarchist Cases Again Before That Body, Also the Constitutionality of the New York Election Law—Other Dispatches from Washington.

WASHINGTON, Oct. 20.—Ex-Attorney-General Garland, acting as counsel for James E. Boyd, plaintiff in error, made a motion in the supreme court of the United States Monday, to advance for argument the case of Boyd vs. John M. Thayer, known as the Nebraska gubernatorial case. G. L. Webster, acting for Governor Thayer, opposed the motion, stating that the attorneys for his client would not be ready to appear and argue the case until after the Christmas holidays. The court took the matter under advisement.

The Boyd-Thayer case has attracted considerable attention throughout the country. Boyd was elected governor of Nebraska on the Democratic ticket, to succeed Thayer, Republican, who did not run for a second term. Before Mr. Boyd could be inaugurated the case was brought into court on the contention that he was not a citizen of the United States, being of foreign birth and never having been naturalized. The supreme court of the state of Nebraska affirmed this contention and Thayer continued to act as governor.

Boyd appealed to the federal supreme court. Mr. Garland contends that nearly one-half of Boyd's term of office as governor must expire before the case can be determined, no matter how early a decision may be given, and that if the case is permitted to remain on the docket, the whole term will expire and another gubernatorial election will be held in Nebraska.

It will be remembered that there was some interest manifested as to whom President Harrison would recognize as governor of Nebraska while he was in Omaha, last May, returning from his grand circuit of the country. Just before he reached Omaha the Nebraska supreme court decided that Boyd was not a citizen, and the president, consequently, recognized Thayer.

Decisions Announced.
In the United States supreme court yesterday Justice Field announced decisions of the court advancing the cases of the New York murderers, Nicola Trezona and James McElvaine, for argument on the first Monday in December, and also advancing for argument immediately following these cases, the case of Fielden and Schwab, the Chicago anarchists undergoing sentences of life imprisonment in the Joliet penitentiary.

The cases of Trezona and McElvaine involve the constitutionality of the electrocution law, the principal contention of the defendants being that that part of the law forbidding the publication by newspapers of the details of an execution by electricity, is against a direct provision of the constitution respecting the liberty of the press.

The cases of the anarchists come to the supreme court on technical grounds. There was only one opinion rendered by the supreme court yesterday, and that was not of general interest.

One of Michigan's State Laws.
The court also advanced the case of the Chicago and Grand Trunk Railway company against Thomas Wellman to be heard when a full bench is secured. The case involves the constitutionality of an act passed by the Michigan legislature fixing passenger rates for more than five miles at from two to three cents per mile, according to the mileage earnings of the road.

Successful Rain-Makers.
WASHINGTON, Oct. 20.—The Post publishes a special from Camp Edward, near San Diego, Tex., to the effect that at 4 o'clock yesterday morning rain fell in torrents, as a result of the experiments of the rain-makers. Their bombardment began Saturday evening and continued during the greater part of the night. The rain-fall lasted an hour, and its value is estimated at \$500,000.

Same Old Pension Office Rumor.
WASHINGTON, Oct. 20.—A rumor was current here yesterday that the president had accepted the resignation of Pension Commissioner Raum, and would appoint ex-Governor Steel, of Indiana, to the vacancy. No confirmation of the rumor can be obtained. Pension Commissioner Raum said last night that he had not resigned or been asked to resign.

Not Officially Informed.
WASHINGTON, Oct. 20.—Acting Secretary Wharton stated this morning that he had received no communication from either the American consul at Rome or from the Italian ministry that the Italian government had decided to rescind the decree prohibiting the importation of American pork into Italy.

Counterfeiters Arrested.
WASHINGTON, Oct. 20.—The treasury department is informed of the arrest in Chicago of Edward Allie, and in Philadelphia of Daniel Dougherty and George Alberts, all for manufacturing counterfeit coin.

Political Gathering.
CINCINNATI, Oct. 20.—A large and enthusiastic Democratic political meeting at Music Hall last night was addressed by Governor Campbell, Congressman Crisp, of Georgia, and others.

A Broken Up Cabinet.
SYDNEY, N. S. W., Oct. 20.—Premier Parkes has resigned in consequence of the recent government defeat on the eight-hour question.

NEW MEXICO.

Annual Report of Governor Prince Sent to Washington.

WASHINGTON, Oct. 20.—The annual report of Governor Prince, of New Mexico, has been submitted to the secretary of the interior. The report says that the people of New Mexico gratefully recognize the action of congress in passing the land grant bill for the settlement of private land claims. No one, but those who are familiar with the subject, the report says, can appreciate the importance or the advantage to the future of New Mexico.

In regard to statehood, Governor Prince says that the constitution was submitted to a vote by the people on Oct. 7, 1890, and it was defeated by a large majority. This action on the part of the people, the governor says, while peculiar, does not indicate a disinclination to assume the condition of statehood. He says that New Mexico should not be kept in the subordinate position of a territory, for the reason that she possesses the number of inhabitants, the resources and taxable property. The total assessed valuation of the property of New Mexico in 1890 was \$45,109,847, and of this \$1,972,165 was exempt from taxation under territorial laws.

The financial condition of the territory, the governor says, is remarkably good.

On the subject of irrigation the governor says there is nothing of greater importance to New Mexico than this. The future of the territory depends very largely on the increase of its area of cultivated land through comprehensive systems of irrigation.

ACCIDENT TO THE ATLANTA.

Captain Phillips Makes His Official Report to the Navy Department.

WASHINGTON, Oct. 20.—Captain Phillips, of the United States steamship Atlanta, in a report to the navy department on the explosion of gas that caused the accident in the Atlanta, says:

"I desire to call the attention of the department to the acts of the executive officers, Lieutenant T. M. B. Mason and the carpenter, E. W. Craig, who fearlessly rushed into the smoking compartment, followed closely by Cornelius Moran, master-at-arms; John Kronberg, ship's mate, and Charles Gross, gunner's mate, who, by their cool judgment and decided action with the appliances of the ship, located the trouble and soon dispelled all anxiety on the part of others, who were at their stations for an emergency."

Lieutenant Mason reports that Ensign Caphart and Brittain, by their action and coolness, rendered him valuable assistance.

"In conclusion I desire here to state, that I consider the Atlanta, as a ship, the best seaboat I have ever been on board of."

Escaped Forger Recaptured.

NOBLESVILLE, Ind., Oct. 20.—George Record, of Boone county, has caused a sensation in business circles by his alleged crookedness. He went to Mr. Pucket, of Clinton county, and leased a farm for a term of years, besides taking the live stock, farming implements, etc. In payment therefor he tendered notes aggregating \$9,200, to which the name of his father, together with those of P. W. Johnson, of this city; Theodore Johnson, of this county, and Milton Davidson, had been forged. Record had possession of the farm two weeks before his forgeries were discovered. He was arrested, but he escaped under the pretense of giving bond. Last Saturday he was recaptured, and he is now in jail at Lebanon.

Prominent Physician Skips Out.

COLUMBUS, O., Oct. 20.—Sunday night Dr. S. Iglick, a well known Columbus physician, visited a patient and did not return home. He sent a note to his wife saying he had left her; that she would be well provided for, as all he left behind belonged to her, and all who owed him anything should settle with her. They had been married fourteen years, but he said he never loved her and she never loved him, and he could bear the life he had been leading no longer. Mrs. Iglick thinks her husband has gone with a niece, a Miss Price, of New York.

Money Illegally Used.

PHILADELPHIA, Oct. 20.—Yesterday J. Alexander Simpson, Jr., completed his report on the bill filed by Samuel E. Mairs, representing the certificate holders of the defunct Benevolent Order of Earnest Workers, asking for an accounting by the supreme officers in favor of Mr. Mairs' petition, and recommends a decree of the court, surcharging Edwin W. Harris, the ex-supreme president, and Harry C. Gunk, the ex-supreme secretary, with from \$11,000 to \$16,000, which he finds was illegally used or paid out by those officers.

Creditors to Reap the Benefit.

BOSTON, Oct. 20.—It was stated yesterday that arrangements have been made with the navy department whereby the vessels contracted for by Mr. Loring, whose assignment was announced Saturday, can be finished under the direction of the assignees, so that the creditors may reap the benefits. Mr. Loring was constructing a cruiser and three tugs for the government at the time of his failure.

Stage Coach Robbed.

REDDING, Cal., Oct. 20.—A masked highwayman, armed with a double-barreled shotgun, stopped the Redding and Weaverville stage about a mile from this place yesterday evening and compelled the driver to hand over Wells, Fargo & Company's box. None of the passengers were molested. The loss is said to be small. A posse has started in pursuit of the robber.

Chinamen Driven Out of Town.

DELAOR, Cal., Oct. 20.—Fifteen Chinamen arrived here last night to take the places of a white crew working in a section gang on the Southern Pacific railroad. Shortly after their arrival a mob of white men drove them out of town.

MEXICAN BULLFIGHT

A Great Event at the Republic's Capital.

BENEFIT FOR FLOOD SUFFERERS.

Over Twelve Thousand People Witnessed the National Sport—President Diaz and Other High Officials Present—Nine Bulls Killed.

CITY OF MEXICO, Oct. 20.—The revival of bull fighting in the City of Mexico Sunday was in the name of charity. A committee of ladies of this capital, with Mrs. Diaz, the wife of the president at their head, organized it for the benefit of the sufferers from the floods of Spain. It was one of the greatest spectacles in the Mexican national sport ever witnessed in the North American continent.

The time set was 2:30 in the afternoon. For an hour previous San Francisco street, the Avenida Juárez and the Paseo de la Reforma presented a most animated scene. Carriages of every degree from the landaus of ministers and senators, with cockades and liveries down to the commonest hacks, jostled together on the way to the bull fight. A stream of pedestrians, bent on the same errand, filled the sidewalks, while from balconies and housetops thousands watched the passing throng.

At the Plaza de Toros, the people came from every direction, but so perfect were the police arrangements that no difficulty or disorder was encountered, and the human tide poured into the great amphitheater wit. out delay or discomfort. It is estimated that 12,000 people were within the enclosure. Two military bands were present and four companies of infantry served to insure good order. A long row of boxes intended for President Diaz and his party, the committee of ladies and their friends and members of the Spanish Casino were elaborately decorated with bunting, the Spanish colors and palm branches.

Presently a roll from the drums, a flourish of trumpets, followed by the national hymn by the band stationed outside the amphitheatre, announced the arrival of the president of the republic. His appearance in his box was the signal for enthusiastic cheers from the spectators, salutes by the soldiers and a repetition of the national hymn by the band inside the enclosure. The applause was genuine and universal. Hundreds of miniature Spanish and Mexican flags were unfurled and waved by the people during the posting of the Mexican ensign in front of the presidential box. The president was evidently in excellent health and spirits, and, advancing in front of the box, acknowledged the cordial reception. Accompanying the president were Mrs. Diaz, the committee of ladies and a brilliant company composed of the very cream of Mexican society.

Nine bulls of celebrated breed were killed among the bravos of the spectators. The animals had been trained for the occasion, and many of the matadors had narrow escapes.

President Diaz and party left the ring during the killing of the eighth bull. The banderillos that had been stuck into the bulls, were, after the fight, sold by peddlers at extravagant prices. This was one of the greatest fights that Mexico has seen for years, and the amount received for admission fees is supposed to reach \$25,000. The great crowd was demonstrative, but good-natured and orderly.

LOCOMOTIVE EXPLODES.

Three Men Instantly Killed and One Fatally Injured.

POTTSVILLE, Pa., Oct. 20.—At 6:45 yesterday evening a terrible accident occurred at Tucker's watch box, a short distance below St. Clair, in which three men were killed and one fatally injured. Mountain engine 995, on the Philadelphia and Reading road, was drawing a train of empties up the grade when the boiler exploded, completely demolishing the engine, tearing up the tracks, and doing great damage to telegraph lines and surroundings.

The names of the killed are: Charles Warnicker, brakeman, of St. Clair; Harry Wagner, engineer, of Port Carbon; Mahlon Keese, fireman. Charles Baur, brakeman, of St. Clair, is fatally injured. The men were in the cab when the explosion took place. No cause is assigned for the explosion, the engine being just out of the shops.

Trust on Life Insurance.

NEW YORK, Oct. 20.—A new trust company is soon to begin business in this city as an offshoot of an adjunct to the Mutual Life Insurance company. It will, it is said, have a capital of \$1,000,000, and its stock will be mainly held by the trustees of the Mutual Life Insurance company who will, of course, control. One of the objects of the new company it is understood, is to advance money on life insurance policies. It is presumed that the name of the company will be "The Guarantee and Indemnity company."

Killed in a Runaway.

CALDWELL, O., Oct. 20.—Miss Eva Gray, the seventeen-year-old daughter of Thomas Gray, was killed in a runaway near Macksburg. The girl and a young man named Benjamin Longfellow were out riding in a cart, when the horse became frightened and ran away, throwing the occupants out, killing the young lady and seriously injuring the young man.

Death at a Dance.

LIMA, O., Oct. 20.—Sunday night, while a dance was in progress at Fort Seneca, Frank Workley, proprietor of the building entered the hall while drunk, and ordered every one out. Frank Lewis and George Williams attempted to disarm Workley, when he commenced firing, killing Williams and wounding Lewis, who will die.

IT IS TRUE.

Governor Steele, of Oklahoma, Has Sent in His Resignation.

MARION, Ind., Oct. 20.—Major George W. Steele has corroborated the press dispatches to the effect that he had resigned his position as governor of Oklahoma. The news created little surprise here. The beautiful home and manifold business interests that draw him to Marion have always caused wonder that he should accept and retain a \$2,500 position on the frontier. When seen yesterday, he said:

"Yes, it is true that I have resigned. I had not intended to make the fact public, but I see it has leaked out in the papers. My official resignation was forwarded to President Harrison on the 2d inst. I am to be relieved not later than the 15th. The president replied with a warm personal letter, regretting the resignation and saying it would not be possible to make an appointment by that time, so I will be obliged to return to Oklahoma."

"It is not true, as a morning paper states, that I am dissatisfied with the duties and the location of the official position. The only thing about the location I didn't like was the cramped quarters. Our residence consisted of two small rooms in a business block, but there is no more delightful country or climate anywhere than Oklahoma. As for the salary, it has nothing to do with it. I am simply tired of frontier life. If I wanted to remain permanently in the country I would retain the governorship. But here my wife, my daughter and myself were raised from childhood, and here we have a comfortable home. We are not content anywhere else."

SENOR MARTI RESIGNS.

Vacancy in the Argentine Republic Consularship.

NEW YORK, Oct. 20.—Senor Marti, consul general of the Argentine Republic and a prominent merchant of this city, has resigned his official position, and the consularships of the republics of Uruguay and Paraguay, which he also held. Senor Marti, who is a Cuban by birth, presided at the exercises recently held by the Cuban residents of this city in commemoration of their declaration of independence.

This, it seems, roused the ire of the Spanish minister at Washington, and he protested to the Argentine minister at Washington against Senor Marti's actions. Senor Marti heard of this and immediately resigned so as to remove all embarrassment from the republic which he represented.

Claims a Branch of Trust.

TRENTON, Oct. 20.—President Sanford, of the Adams Express company, has filed in the United States circuit court a bill against John Hoey, setting forth that money of the express company was used to build the Hollywood properties at Long Branch. The bill states that a mortgage on Hollywood executed by Mrs. Hoey was paid off by a check of the Adams Express company. This is described as a branch of trust, and the court is asked to decree how far the company can follow the money as a lien on the property.

The Great Seal Attached.

TALLAHASSEE, Oct. 20.—The seal of the state of Florida and the signature of the secretary of state have been attached to a copy of the proceedings of the joint session of the legislature, including the proceedings of May 26, when Mr. Call was elected United States senator. The attorney general has declined to institute proceedings in supreme court for the issuance of a mandamus to compel the secretary of state to sign the seal and the appointment of Davidson, as directed by Governor Fleming.

Shot Down by Mexican Soldiers.

RIO GRANDE CITY, Tex., Oct. 20.—Sunday morning, on the Mexican side, three men were shot by the government forces under command of General Lorenzo Garcia. Two of them were cowboys who have been working near Victoria and who incautiously crossed the river without a permit from the Mexican consul on this side. The other, Juan Bazan, an army meat contractor, was suspected of revolutionary sentiments. General Garcia ordered their peremptory execution.

Hanlan Won the Race.

VICTORIA, B. C., Oct. 20.—Edward Hanlan, of Toronto, defeated Alex McLean, of this city in a three mile scull race in outwitted skills here yesterday by 200 yards. Hanlan gave McLean a start of thirty feet, but caught and passed his opponent before one hundred yards had been rowed. Thereafter he was never hard pressed and won as he pleased. The water was in splendid condition for racing. The time was 21m. 31.1-2s.

River Men Indicted.

LOUISVILLE, Oct. 20.—The United States Mail Line company, and Frank Carter, the superintendent of the company, were indicted by the grand jury of the United States court Monday for advertising that the City of Madison, one of the boats of that line, carried the United States mail contrary to the facts. They were indicted on three separate counts and gave bond. The cases will be tried in February.

Proof of Balmaceda's Death.

NEW YORK, Oct. 20.—Charles R. Flint & Company of this city, discredit the assertions made by two members of Balmaceda's staff, now in this country, that the Chilean ex-president is alive and in either New York or Europe. One of the members of the firm said that the proofs of Balmaceda's death by suicide were too well authenticated to leave room for doubt.

From Weekly to Daily.

NEW YORK, Oct. 20.—The Hon. John A. Schleicher has been appointed editor-in-chief of The Mail and Express, to succeed the late Major J. M. Bundy. Mr. Schleicher retires from the editorship of Frank Leslie's Weekly.

"We are ready for a foreign market for our surplus."—Commercial Gazette.

What's the matter with the "home market," which the McKinley bill was to provide for our surplus?

WHERE are those sidewalks Council at its last session ordered put down on Commerce and Poplar streets? The children in that ward have to trudge through the mud to get to school these rainy days.

BEHIND the bars at Louisville there are seventeen murderers awaiting trial. The Falls City should remember the terrible riot at Cincinnati a few years ago which was directly the result of a failure to execute the law.

A REPUBLICAN meeting was advertised at Portsmouth a few days ago. A distinguished orator from Pennsylvania was present, but when he arose to begin his remarks there were only eighty-five people in the house. The Times says it was "a political collapse."

ELECTIONS will be held in ten or twelve States next month, but all eyes are centered on the fight in Ohio. If the Democrats win there, it will more than compensate for losses elsewhere. However, they haven't been making many losing fights since 1888.

"We will demand representation, and you'll see that we'll get it, or something will drop. We don't propose to be satisfied with having an alternate delegateship thrown to us. When the convention meets the colored delegates will get together and combine on the strongest man. That man is G. W. Gaines, of Covington. Socially, politically and financially, he is the leading colored Republican in the State."

The above is taken from an interview with Rev. Geo. W. Hatton, colored, of Louisville, in reference to Kentucky's delegation to the next Republican National convention. Mr. Hatton is not entirely unknown in Maysville. He is very plain in his talk, but it is doubtful whether the white Republicans of Kentucky will consent to divide honors even, with their colored brethren.

GENERAL FITZSIMONS, of Chicago, makes a statement in regard to the underpinning of that city, which should make its inhabitants a little uneasy. He says: "Chicago is practically afloat. We are resting upon a semi-fluid mass, which is covered by a crust only sixteen feet thick. The pressure of the tall buildings upon this semi-fluid mass has a tendency to force this substance up on either side."

His opinion is supported by the fact that the Government building is falling to pieces by the settling of the walls, and the Board of Trade building has sunk eight inches. Probably the World's Fair had better be held some place where the earth is a little firmer. We don't want to run the risk of going to the "Windy City" and being "taken in" or swallowed up by the earth. Chicagoans will wake up some of these mornings and find their sixteen-story buildings missing. The sky-scraping structures will simply force their way through that "crust" and kerslush, they'll go "out of sight."

THERE is no doubt that the Australian ballot law adopted by the last Legislature of Ohio is the source of great deal of worry to the Republicans of that State. The Commercial Gazette refers to it as "the outlandish ballot law," and many other Republican papers denounce it. It is conceded that it is the best law yet devised to prevent bribery and corruption at the polls and Republicans are giving themselves dead away by opposing and denouncing it. The secret of their opposition may be explained by the following which is taken from an interview with an Indiana Republican, who speaking of the operations of the secret ballot in that State, said:

"The majority of the poor people of this country are Democrats. If left to follow their own convictions they will vote the Democratic ticket. Now, we had always been able in Indiana under the old system to purchase and persuade many of these people to vote for the Republican candidates. In large manufacturing establishments, owned by Republicans, the operatives could generally be induced to vote as their employers wished. But the new system permits the voter to cast an absolutely secret ballot, and the result of recent elections in Indiana conducted under that system demonstrates conclusively that nearly all the doubtful voters put Democratic tickets into the ballot boxes."

Last Notice To Taxpayers.

On and after November 1st, 1891, the penalty of six cents on the dollar will be added to all unpaid taxes. Taxpayers will please pay now as I have a large amount of money to raise this month.

River News.

More freight starts at the headwaters of the Ohio than at the headwaters of any of the other rivers that empty into the Mississippi.

Captain Harry Brown says he has acquired definitely the cost of coal of transporting coal and coke from Pittsburgh to New Orleans in car load lots by rail and found it to be over \$10 a ton, while by river it can be done for less than seventy-five cents.

Of the Pittsburgh packets the C. W. Batchelor is at Pittsburgh, the Scotia, Keystone State and Andes are at Cincinnati, the Hudson is at Wheeling, the Congo is in the Mall Line to Louisville; the Bay Line steamer H. M. Stanley is at Point Pleasant, the Louise, Chevalier, B. T. Enos, and Lizzie Bay are at Ironton; the Pomeroy Packet Company's boats Boston, Bonanza, St. Lawrence, Chancellor and City of Madison are at Cincinnati, together with the Mail Line boats, Fleetwood and Big Sandy, and the Chilo packet Tacoma. All of these steamers have been repaired and are in first-class condition and ready to take their places in their respective trades on the first opening of navigation.

Has Not Bought Property at Dover.

On yesterday, Mr. Bruce, who is writing up the industrial resources along the Chesapeake and Ohio Railway, had an interview with Mr. M. E. Ingalls, President of the company, and C. B. Ryan, in charge of the passenger department. Mr. Bruce states that the report lately originated about the C. and O. purchasing property at Dover with a view to any construction is an error. The only purchase made by this company of anything at Dover, was a lot of gravel for the purpose of ballasting the track of the company near that point.

What will be the future policy of the company with reference to divisional stops along this end of the line is unknown, but one of the heaviest shipments the company can look for will come via Louisville and the K. C. The latter road has its terminus at Maysville.

Religious Notes.

It is a significant fact that fifteen ministers are employed on the daily press of New York City writing on religious topics.

In 1885 there was not a single Baptist on the island of Cuba. Now there are over 2,000 and more than a dozen churches.

The postoffice address of Rev. G. S. Savage, District Superintendent of the American Bible Society, is changed to Millersburg, Kentucky.

Georgetown Times: "Elder W. R. Lloyd will resign as pastor of the Christian Church the first of next year, much to the regret of many friends."

Railway News.

A new schedule will go into effect on the C. and O. early next month.

The Pullman Palace Car Company built 191 sleeping, parlor and dining cars during the year, costing an average of \$10,124 per car. The number of cars owned and controlled by the company is 2,239. The number of passengers carried during the year was 5,310,813, against 5,023,057 for the preceding year, an increase of about 6 per cent. The total number of persons in the employ of the company, in its manufacturing and operating departments, was 13,885 and the wages paid during the year amounted to \$7,303,108.

[London Times.]

Here is some information about the percentage of women who marry which is very interesting.

Taking the earliest marrying age to be fifteen, which is the minimum in most civilized countries, and letting 100 represent her entire chance of marrying at certain points of her progress through life, a woman's chances of marriage stand in the following ratio:

| Between the age of | Per cent. |
|----------------------|-----------|
| 15 and 20 years..... | 14% |
| 20 and 25 years..... | 52% |
| 25 and 30 years..... | 18% |
| 30 and 35 years..... | 15% |
| 35 and 40 years..... | 8% |
| 40 and 45 years..... | 3% |
| 45 and 50 years..... | 2% |
| 50 and 60 years..... | 1% |

Above the age of sixty her chances are only one-tenth of 1 per cent., or two in 1,000. That marriage is a lottery is a time-worn saying, but Sir Francis Galton has been investigating the results as far as temper is concerned, with the following curious results, based on the peculiarities of 205 couples.

He found that 52 per cent. of wives had good tempers, against only 42 per cent. of good-humored husbands; 22 husbands had but mild and docile wives, and 24 of them had fretful, violent and masterful wives.

Of 54 bad-tempered men 32 had good-tempered and 22 bad-tempered wives. It was also found that 23 per cent. of wives are fretful, 13 per cent. violent and 6 per cent. masterful.

A PROMINENT Common Pleas Judge of Central Kentucky thinks the new Constitution will be the adoption of virtual prohibition almost throughout the State? He says: "I have been studying the new instrument very thoroughly recently, and find that a general law 'must' be framed by the Commissioners and enacted by the Legislature, which will give the voters of every city and county in the State the immediate right to vote separately on whether or not intoxicating liquors shall be made and sold within their respective borders, and when it comes to a separate test vote you will find that the anti-liquor people will win in about three-fourths of the counties of the State."

A FACT!

We made the following proposition to a man who was about to visit Cincinnati and Louisville: If Webster's International Dictionary, with Noyes' No. 19 Stand could be bought for less than we could sell them to him, in either of the above cities, we would sell him one for one dollar less than their (Cincinnati and Louisville) price. He came back and bought our Dictionary and Stand for \$13.50, and said it was one dollar and twenty-five cents cheaper than the best houses in the other cities would sell it to him for. TEACHERS, can you do without one? PARENTS, it is brain food for your children. Keep one where they can partake thereof at any time. SWEPT BY A STORM.

Hurricane Prevailing Throughout Ireland.

VAST DESTRUCTION DONE.

Vessels Injured at Sea and Probably Loss of Life—Rivers Overflowed and Houses and Barns Entirely Destroyed—Other Occurrences in the Old World.

LONDON, Oct. 20.—There seems to be no end to the terrible severe weather which has prevailed almost without interruption for about a week. No sooner does the wind go down for a few hours than the report is spread that the bad weather has ceased. But people have hardly commenced to congratulate themselves over this aspect of affairs than the sky again becomes a leaden color and the fury of the wind is again let loose.

During the past forty-eight hours the Irish sea has been most severely storm-swept. The Dublin mail packet from Holyhead arrived at Kingston, the landing place from Dublin, five hours late. She reports that after being out two hours a tremendous heavy sea smashed several of the paddles, or floats of her weather side wheel. Consequently the packet had to return for repairs, and hardly had the paddles been repaired when another heavy sea carried away the steering wheel and a portion of the bridge. The passengers upon arrival at Kingston declared that they had passed through a really awful experience.

The hurricane which has prevailed on the west coast of Ireland for several days past is pronounced to be the worst storm known in that part of the country in twenty years. The River Shannon has overflowed its banks and has submerged large quantities of land in its vicinity, drowning a considerable number of cattle and sheep and destroying several houses and many barns and other buildings.

About 200 vessels, many of them damaged, have taken refuge at Holyhead. The high tide is destroying the sea wall at Sandgate and the people of the town are alarmed, fearing submersion. The Thames is overflowing at Windsor, Eton, and other places inundating the lower parts of houses in those vicinities.

Torn to Pieces by a Tiger.

LONDON, Oct. 20.—A most sensational incident is reported from Belgrade. A professional tamer of tigers entered the cage of a Bengal tiger in the presence of many spectators. The tiger seized the man and tore him to pieces, many of the witnesses fainting at the awful scene, which none were able to prevent. Then a report spread that the tiger had escaped from its cage and was at large in the streets. A panic spread throughout the city and people rushed about taking their children to places of safety. The report proved to be false. The tiger will probably be killed.

Epidemic of Influenza.

MELBOURNE, Oct. 20.—An epidemic of influenza, said to be similar to that which prevailed recently in Europe and America, is prevalent in Victoria and New South Wales, and has prostrated many people of all classes. The deaths are not numerous as compared with the number of the affected.

The Sultan Objects.

CONSTANTINOPLE, Oct. 20.—It is said that the sultan has signified to Russia his disapproval of the proposed passage of a ship-of-war carrying the Russian Grand Duke George through the Dardanelles, and that the port is preparing to fortify the entrance to the Bosphorus from the Black sea.

Our Vessels in Chilean War.

LONDON, Oct. 20.—The Times Valparaiso dispatch says impartial evidence confirms the statement that the United States squadron in Chilean waters, both in words and deeds, displayed enmity towards the congressional navy during the recent war.

GERMAN BARK WRECKED.

Fever on Board Prevents the Necessary Assistance Being Rendered.

FERNANDINA, Fla., Oct. 20.—The German bark Solideo Gloria is ashore at the mouth of the Nashua river, between Amelia and Talbot islands, and is fast going to pieces. The vessel, which was bound from Jamaica for St. Simons, anchored off Fernandina Bar Friday and displayed signals of distress.

A tug went out to her when it was found that there was fever aboard, and the vessel wished to go into quarantine. The captain reported that three men had died of the disease, while two others were down with it, leaving an insufficient force to handle the vessel. During the night the vessel broke from her anchorage and went ashore. The crew escaped to Talbot island. The wreck will probably be burned by the board of health as a safeguard against infection.

Ship in a Storm.

LEWES, Del., Oct. 20.—The schooner Rebecca J. Evans, Captain B. M. Fernandez, from Brava, Cape Verde island, for Boston, put into the break-water here for repairs and provisions yesterday. She encountered a severe gale Oct. 2, which blew with great force thirteen days from southeast to northeast, blowing sails, tearing away sheeting from stern, star-board, anchor and sixty fathoms of hawser. The cabin and fore-cabin were filled with water, the ballast shifted, and considerable of the vessel material was washed off deck. The vessel is leaking badly. Seven passengers are on board, including two ladies.

An Old Lady Suicides.

CORTLAND, N. Y., Oct. 20.—Mrs. Samuel Williams, the wife of a prominent farmer at Willet, disappeared Sunday. A search was made and resulted in the finding of her body in an ice house. Her throat was cut from ear to ear. A razor was found by her side which she had taken from her home. Mrs. Williams was seventy-five years old. The cause of her rash act was probably despondency. She was ill and almost helpless, and imagined she was in the way of her family and friends.

Louisville Tobacco Market.

Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse. Sales on our market for the week just closed amount to 2,588 hhds. with receipts for the same period of 718 hhds. Sales on our market since January 1st amount to 133,281 hhds. Sales of the crop of 1899 on our market to this date amount to 98,201 hhds. The offerings have not been quite so heavy for the past week, and we have some little improvement in the medium grades of burley. The good to fine types are as high, if not higher, than at any time during the season. Common sorts continue dull. The following quotations fairly represent our market for new burley tobacco: Trash (dark) or damaged tobacco.....\$ 2.00@3.00 Colory trash.....3.00@4.00 Common lugs, not colory.....3.50@4.50 Colory lugs.....5.00@7.00 Common leaf.....5.00@7.00 Medium to good leaf.....7.00@12.00 Good to fine filler.....12.00@22.00 Select wraperry tobacco.....22.00@33.00

Weekly Review of Cincinnati Tobacco Market.

The offerings at auction for the week were 2,675 hhds, classified as follows: 657 hds Mason County (Ky.) District; 450 hds Pendleton County (Ky.) District; 314 hds Owen County (Ky.) District; 251 hds Blue Grass (Ky.) District; 292 hds Brown County (Ky.) District; and 11 hds Indiana, against 2,473 hhds the previous week and 2,730 hds corresponding week last year. Total offerings for year to date 98,061 hhds, against 96,742 hds same time last year.

Receipts for the week.....585
Receipts same week last year.....1,238

The breaks were some larger than last week and the receipts are small, being slightly less than during the previous week and showing a decrease in stock of 918 hhds. The market did not show any change of note from the past two weeks. Good and fine leaf and all grades that are sound or with color or character are sought after and bring full and satisfactory prices. Red tobacco and common and medium leaf remain easy, buyers not showing any special desire to secure these grades. Common trash, lugs and nondescripts, while composing half the offerings, show a fair demand and are selling very well. Of the 2,675 hds, 657 sold from \$1 to \$3.50, 251 from \$4 to \$5.95, 455 from \$6 to \$7.95, 294 from \$8 to \$9.95, 351 from \$10 to \$14.75, 284 from \$15 to \$19.75, 95 from \$20 to \$24.75, and 8 from \$25 to \$30.
